

COVID 19 Statement

Harlaxton Engineering Services Ltd are monitoring the rapidly evolving situation surrounding COVID 19 alongside this the Directors and Management Team have been continuously meeting and updating on the situation and continue to do so.

Our priorities are:

- The health and wellbeing of our employees, people we work with and the public
- Providing continuous service to our customers
- Act responsibly in playing our part in slowing the spread of Coronavirus

The UK government has supported the construction industry inclusive of Utility Infrastructure Providers to continue to operate with added guidelines. Harlaxton will remain operational and implement the current version of Standard Operating Procedure which are issued by the Construction Leadership Council. We will ensure that we adhere to the Governments guidelines at all times.

I can confirm that Harlaxton are operating as normal and our teams are aware of these updates and continue provide the same level of service as always. Our Support Functions are working from home where possible to ensure the engineers can undertake their daily tasks.

We thank you for your continued support throughout these unprecedented times and by working together we hope to come out the other side stronger than ever.

We will provide updates as the situation evolves.

Lucy Hibbert
Managing Director
